The countless options above serve only as an outline of the true power contained within ComfortableConservatories. In reality, this essential tool holds a whole lot more fundamental benefits to make the most attractive sales presentations imaginable! By supplying your sales force with this software they will be equiped to handle even the most demanding of sales. All conservatories within this unique system can be configured to your customer's specification. Most of the modules contained on the massive style list can be altered in such a way that they each cover many conservatory combinations, offering "1-off design" functionality that doesn't incur the additional costs, or skills usually required in that type of software. Numerous 'dimensioned' line drawings such as Base Plan, Roof Plan, Cill Plan, 6 views etc, and many, many 3D Photo-reports (before&after, photo-quote, overlays and more!) can all be selected, printed, saved as jpegs, and even emailed with ease. Reports can contain your company information and logo, arming you with glossy prints that give you the complete competitive edge. Using the powerful new integrated 'Comfy CAD' utility you can even create planning documents with conservatory elevations pulled directly from a configured conservatory!
